

MAMJONOV DIYORBEEK

Software Engineer & Full-Stack Engineer

 [diyorbek-mamajonov](#) |  diyorbekjon2202.kr@gmail.com |  [diyorbekMIT](#) |  [diyorbek-hire.me](#)

EDUCATION

Inha University in South Korea

March 2023 - October 2025

Integrated Systems Engineering in Computer Science

- **Relevant Courses:** OOP, Data Structures, Software Engineering, Computer Programming

WORK EXPERIENCE

Backend Engineer(self-employed) - Javascript/n8n/AI apis

October 2025 - March 2026

- Automated Instagram Direct Message workflows using n8n and AI APIs, designing intelligent conversation flows to handle customer inquiries without manual intervention. Deployed and tested the automation system across 2 live Instagram business accounts, integrating AI-driven response generation to deliver context-aware replies in real time. Reduced response time and manual workload by streamlining chat handling through no-code/low-code automation architecture, combining n8n workflows with third-party AI APIs for natural language understanding.

Full Stack Developer Intern, South Korea(Remote) [devex.uz](#)

April, 2024 - November,2024

- Enhanced user experience by developing responsive web designs for seamless cross-device compatibility.
- Developed, coded, modified and debugged application programs of varying degree of complexity with full independence.
- Worked with senior developers and designers to implement nestar.uz using HTML, CSS, JavaScript and NodeJs.
- Wrote production-ready code with fluency in modern front-end and back-end frameworks.
- Optimized website performance through efficient code refactoring and implementing best practices in coding standards.

SKILLS

- **Backend Skills:** NodeJs, ExpressJs, Javascript/Typescript, Java, Spring , MongoDB, SQL, Git, Linux, n8n
- **Frontend Skills:** React, Redux Toolkit, Tanstack Query, TailwindCSS, Typescript, HTML, CSS
